How this file was prepared		10

Prepared by the applicant from their own files. This is a selection, not a complete history, and it does not show that any authority will accept it. Check the current official guidance for your application.

January 2025

Sunday, January 5, 2025

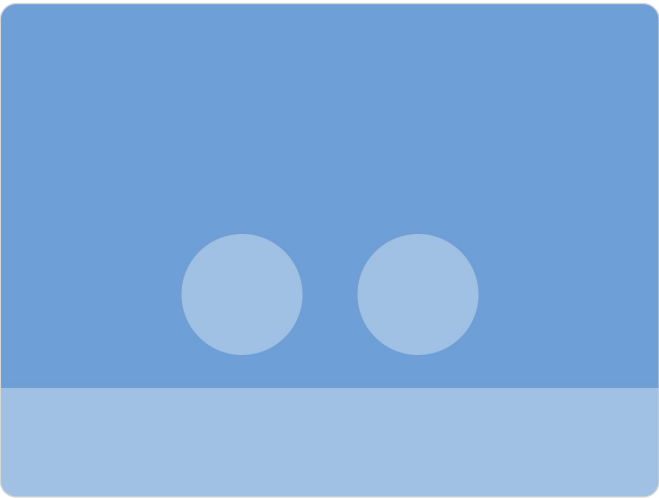

Alex Morgan · 9:00 AM · Source 1, entry 1

Did you land safely?

Sam Lee · 9:03 AM · Source 1, entry 2

Yes! Just got my bags. See you at arrivals.

Sam Lee · 9:04 AM · Source 1, entry 3

Tuesday, January 14, 2025

Alex Morgan · 9:10 PM · Source 1, entry 4

Miss you already. Call tomorrow after work?

Sam Lee · 9:12 PM · Source 1, entry 5

Of course. 8pm your time.

February 2025

Monday, February 10, 2025

Alex Morgan · 6:20 PM · Source 1, entry 6

Train tickets for Friday are booked.

Sam Lee · 6:25 PM · Source 1, entry 7

I'll meet you at the station.
Bring the blue scarf, it's cold here.

Friday, February 21, 2025

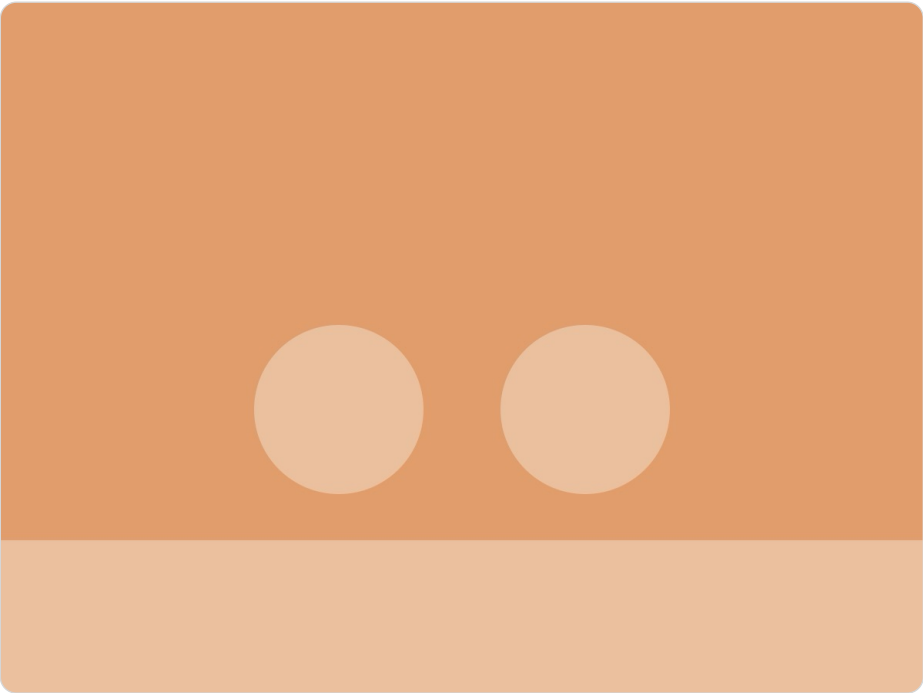

Sam Lee · 8:00 AM · Source 1, entry 9

Happy anniversary ❤️ Two years today.

Alex Morgan · 8:30 AM · Source 1, entry 10

Two years! Dinner at the place we met?

How this file was prepared

Selection

This is a selection, not a complete history. All messages and calls in the chosen period are included. All photos, screenshots and videos in the chosen period are included. No items were added or removed by hand.

Dates and times

Times are shown exactly as written in each source, without time-zone conversion. 2 item(s) have no recorded date and use the date in the file name or the file's own date; they are marked "date estimated".

Hidden text

2 word(s) or phrase(s) were replaced with [REDACTED] in this file; the original wording is not present in it. In screenshots, lines where on-device text recognition found them are covered in black in the image itself; recognition can miss text. Photos, videos and documents are shown as they are.

Source references

"Source 3, entry 12" points at the source file listed below and the position in it: the line number in text exports, the row in spreadsheets, and the message number in Telegram, Messenger and Instagram exports. Messenger and Instagram store times in UTC; they are shown in Europe/London time.

Original files

The applicant's original files were read but never changed. Each is listed below with its SHA-256 fingerprint, which identifies the exact file that was used. A fingerprint does not prove who made a file or that it was not edited before.
